PROJECTS.

- **Weather App-React**
  Developed a responsive Weather App that fetches real-time weather data using REST API and displays temperature, humidity, and weather conditions with an intuitive UI built with Material-UI.

- **Code Editor-React**
  Built a web-based Code Editor with syntax highlighting and a responsive UI using React.js and Material-UI

- **Random Quote Generator**
  Developed a web-based Random Quote Generator that displays dynamic quotes with a simple and interactive UI
